

## Preparation of a Poster Presentation

---

### **Template**

Please download the template from the official website.

### **Preparation of the typescript**

A poster produced by authors should be a visual representation, which can initiate an informal discussion with the visitors.

#### \* Layout and Style

- Panel Size: 90cm wide x 200cm high
- Title: The title should include author's names, affiliations and email addresses.
- Flow: The flow of the chart should be clear and logical.
- Handouts: Prepare two to three-page handouts with overview of poster and contact details as much as possible.

\* Presenter Photographs - Please place the picture of the author on the poster.

\* Bringing and Setting up Posters - Presenters should responsibly bring their posters with them to the symposium. Posters are to be set up and dismantled by authors at an allotted time. Note that at least one author of the poster should make a registration for and attend the symposium.
