

## IWA Japan-YWP Special Session

# "Colorful" Young Water Professionals in Japan -Introduction of Japan-YWP and active young members-

The IWA Japan National Young Water Professionals (Japan-YWP) is established to provide a valuable platform for young water professionals to connect with one another, meet senior water professionals working in different water sectors, learn about the various career options, and discuss emerging challenges. This IWA Japan-YWP Special Session aims to introduce "colorful" young water professionals of Japan-YWP who are active internationally. Their alliance has a great potential to solve drinking water issues not only in Japan but also in other countries. Please enjoy exciting presentations from consultant, waterworks, academic, and government sectors.
