Water Association

The 9th International Symposium on Water Supply Technology

in YOKOHAMA 2012

Date November 20 (Tue) – 22 (Thu), 2012

Venue PACIFICO YOKOHAMA, Yokohama, Japan

FIRST CIRCULAR

Main Theme

Resilient Water Supply System

- Pursuing Safety, Sustainability and Environmental Friendliness

Organizing Committee The 9th International Symposium on Water Supply Technology Steering Committee

Steering Committee Japan Water Research Center, Yokohama Waterworks Bureau

Greeting

The 9th International Symposium on Water Supply Technology will be held in Yokohama City, the birthplace of the country's first modern water service, for three days from Tuesday, November 20th to Thursday November 22nd, 2012. For over 20 years since the 1st symposium in 1988, the International Symposium on Water Supply Technology has been continually held on a triennial basis as an opportunity to discuss the world's current water supply problems and most recent water supply technology trends.

Under the theme of "Resilient Water Supply System - Pursuing Safety, Sustainability and Environmental Friendliness", the 9th symposium will be held with the support of the International Water Association (IWA) along with the participation of many countries from around the world. Together with a keynote speech, special lecture, and presentations by invited speakers, reports regarding cutting-edge water supply technology such as the presentations of public reports in three technical sessions will be made. In addition, based on these sessions, the problems and direction of water supply technology in the world will be summarized by a general panel discussion. A special session based on the Great East Japan Earthquake on March 11, 2011 with the theme of "Toward Water Supply Systems Resistant to Earthquake and Tsunami" will also be held at this symposium.

Finally, an exhibition to be held simultaneously with the symposium will be an excellent opportunity for business entities and companies/ organizations to show the world the advanced water supply technology of Japan and to create business networks.

We sincerely look forward to everyone's participation in the 9th International Symposium on Water Supply Technology.

President, Japan Water Research Center
Chairman, the 9th International Symposium on
Water Supply Technology Steering Committee

Masahiro Fujiwara

Outline

Date:	November 20 (Tue) – 22 (Thu), 2012		
Venue:	PACIFICO YOKOHAMA		
Main Theme:	"Resilient Water Supply System - Pursuing Safety, Sustainability and Environmental Friendliness"		
Languages:	Japanese and English (simultaneous interpretation available)		
Registration Fees:	Members (JWRC or IWA)	30,000JPY	
	Non-members	50,000JPY	
	Students (as of the symposium period)	15,000JPY	
	*Consumption tax included		
Organizing Committee:	The 9 th International Symposium on Water Supply Technology Steering Committee		
Supported by:	International Water Association (IWA), Ministry of Health, Labour and Welfare, Japan Water Works Association, Japan Small Scale Water Works Association, Japan International Cooperation Agency, Japan International Corporation of Welfare Services, Japan Water Forum		
Co-supported by:	Federation of Japan Water Industries, Inc., Association of Water and Sewage Works Consultants Japan, Nippon Suido Shinbun Co., Newspaper of Waterworks Industry		

Symposium Program

November 20 (Tue)

- [a.m.] • Opening: Greetings by the organizer and guests
- Keynote Speech: Akira Koizumi (Professor, Tokyo Metropolitan University)
- Special Lecture: Dr. Glen T. Daigger (IWA President)
- [p.m.] • Presentations by Invited Speakers: Scheduled to invite lecturers from America, Europe, Asia
Chair: Yoshimasa Watanabe (Professor, Center for Environmental Nano and Bio Engineering in Hokkaido University)
- Discussion with Invited Speakers
(A reception afterward is scheduled.)

November 21 (Wed)

- [a.m.] • Special Session **"Toward Water Supply Systems Resistant to Earthquake and Tsunami"**
Chair: Masakatsu Miyajima (Professor, Kanazawa University)
- Poster Session
- Poster Short Presentation
- Youth Water Specialist Program
- 2012 Japan-China Water Supply Technology Symposium (Option)
- [p.m.] • Technical Sessions
- Session 1 **"Water Treatment Technology with Safety, Security and Environmental Friendliness"**
Chair: Sadahiko Ito (Professor, Kyoto University Graduate School)
- Session 2 **"Pipeline Technology for Handing to the Next Generation"**
Chair: Hiroshi Nagaoka (Professor, Tokyo City University)
- Session 3 **"Governance and International Cooperation in Water Supply Field"**
Chair: Hiroaki Furumai (Professor, The University of Tokyo Graduate School)

November 22 (Thu)

- [a.m.] • Session Reports: Chairs for Each Session
- General Panel Discussion
Chair: Shinichiro Ohgaki (President, National Institute for Environmental Studies)
- Closing: Farewell speech
- [p.m.] • Technical Tour [Visit to Kawai Water Purification Plant/Renewal Project] (Option)

Exhibition

The exhibition introduces the water supply field overall. For the most part, in addition to introducing equipment and systems related to the latest water supply technology, PR for various businesses including environmental correspondence will be carried out. Everything concerning water service overall from water supply equipment for the home to water sources will be covered.

In particular, exhibits on disaster measures are being planned in light of the Great East Japan Earthquake.

Entrance: Free

Exhibition Booth Fee: Members (Japan Water Research Center) 346,500JPY

Non-members 420,000JPY

*Including consumption tax Per booth: Approx. 9m² (3m×3m)

Schedule

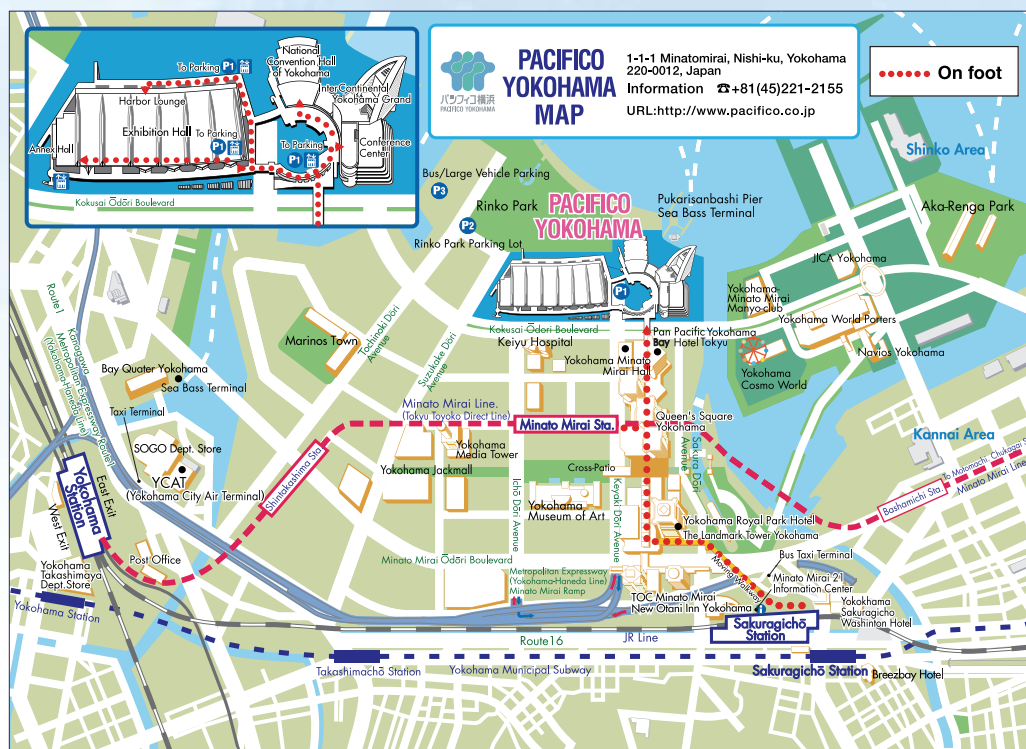

Symposium Abstract Submission:	November 30, 2011 to February 29 April 30, 2012
Symposium Participation Registration:	Early February, 2012 to July 31, 2012
Exhibitor Application Period:	October 19, 2011 to May 31 June 29, 2012

Registration

Please refer to our official website for how to register including symposium participation (will be updated as necessary).

Access

Minato Mirai Station

3-min walk from the Minato Mirai Station (Minato Mirai Line)

Sakuragicho Station (JR or Subway)

12-minute walk, 7 minutes by bus or 5 minutes by taxi from Sakuragicho Station (JR or Subway)

Yokohama Station

7 minutes by taxi, 10 minutes by Sea Bus (boat)

The 9th International Symposium on Water Supply Technology Steering Committee

Chairman

Masahiro Fujiwara President, Japan Water Research Center

Vice Chairman

Kazunari Doi Director General, Yokohama Waterworks Bureau

Members

Shinichiro Ohgaki	President, National Institute for Environmental Studies
Hiroaki Furumai	Professor, The University of Tokyo Graduate School
Sadahiko Ito	Professor, Kyoto University Graduate School
Koichi Yokoyama	Director General, Kobe City Waterworks Bureau
Masaru Ozaki	Executive Director, Japan Water Works Association
Hiromichi Sakamoto	Executive Director, Federation of Japan Water Industries, Inc.
Gojo Wakamatsu	Director of Secretariat, Japan Small Scale Water Works Association
Masaru Shinomoto	President, Nippon Suido Shimbun Co.
Kazuhiro Nishihara	President, Newspaper of Waterworks Industry

Advisors

Hiroyuki Ishitobi	Director, Water Supply Division, Health Service Bureau, Ministry of Health, Labour and Welfare
Michihiro Akiba	Director, Department of Water Supply Engineering, National Institute of Public Health
